Effective Date: This policy is in effect as of September 23, 2013

It is the policy of the Physician Practice that we will adopt, maintain and comply with our Notice of Privacy Practices, which shall be consistent with HIPAA and California law.

It is the policy of this Physician Practice that a notice of privacy practices must be published, that this notice be provided to all subject individuals at the first patient encounter if possible, and that all uses and disclosures of protected health information be done in accord with this organization's notice of privacy practices in our "waiting room" area, and to have copies available for distribution at our reception desk.

Assigning Privacy and Security Responsibilities

It is the policy of this Physician Practice that specific individuals within our workforce are assigned the responsibility of implementing and maintaining the HIPAA Privacy and Security Rules' requirements. Furthermore, it is the policy of this Physician Practice that these individuals will be provided sufficient resources and authority to fulfill their responsibilities. At a minimum it is the policy of this Physician Practice that there will be one individual or job description designated as the Privacy Official.

Minimum Necessary Use and Disclosure of Protected Health Information

It is the policy of this Physician Practice that for all routine and recurring uses and disclosures of protected health information (PHI) (except for uses or disclosures made 1) for treatment purposes, 2) to or as authorized by the patient or 3) as required by law for HIPAA compliance) such uses and disclosures of PHI must be limited to the minimum amount of information needed to accomplish the purpose of the use or disclosure. It is also the policy of this Physician Practice

that non-routine uses and disclosures will be handled pursuant to established criteria. Marketing Activities

It is the policy of this Physician Practice that any uses or disclosures of protected health information for marketing activities will be done only after a valid authorization is in effect except as permitted by law. It is the policy of this organization to consider any communication intended to induce the purchase or use of a product or service where an arrangement exists with a third party for such inducement in exchange for direct or indirect remuneration, or where this organization encourages purchase or use of a product or service directly to constitute "marketing". This organization does not consider the communication of alternate forms of treatment, or the use of products and services in treatment, or a face-to-face communication made by us to the patient, or a promotional gift of nominal value given to the patient to be marketing, unless direct or indirect remuneration is received from a third party. Similarly, this organization does not consider communication to our patients who are health plan enrollees in conjunction with our provision, coordination, or management of their health care and related service, including our coordination or management of their health care with a third party, our consultation with other health care providers relating to their care, or if we refer them for health care to be marketing, but only to the extent these communications describe 1) a provider's participation in the health plan's network, 2) the extent of their covered benefit, or 3) concerning the availability of more effective pharmaceuticals. This organization may make remunerated communication tailored to individual patients with chronic and seriously debilitating or life-threatening conditions provided we are making the communication in conjunction with our provision, coordination, or management of their health care and related services, including our coordination or management of their health care with a third party, our consultation with other health care providers relating to their care, or if we refer them for health care. If we make these types of communications to patients who have a chronic or seriously debilitating or life-threatening condition, we will disclose in at least 14-point type the fact that the communication is remunerated, the name of the party remunerating us, and the fact the patient may opt out of future remunerated communications by calling a toll free number. This organization will stop any further remunerated communications within 30 days of receiving an opt-out request.

It is also the policy of this organization that business associates who violate their agreement will be dealt with first by an attempt to correct the problem, and if that fails by termination of the agreement and discontinuation of services by the business associate, or if that is not feasible, by notification of the HHS Secretary. Finally, it is the policy of this organization that organizations that transmit PHI to this Physician Practice or any of its business associates and require access on a routine basis to such PHI, including a Health Information Exchange Organization, a Regional Health Information Organization, or an E-Prescribing Gateway, and Personal Health record vendors, shall be business associates of this Physician Practice.

Cooperation with Privacy Oversight Authorities

It is the policy of this Physician Practice that oversight agencies such as the Office for Civil Rights of the department of Health and Human Services be given full support and cooperation in their efforts to ensure the protection of health information within this organization. It is also the policy of this organization that all personnel must cooperate with all privacy and security compliance reviews and investigations.

Investigation and Enforcement

It is the policy of this Physician Practice that in addition to cooperation with Privacy Oversight Authorities, this Physician Practice will follow procedures to ensure that investigations are supported internally and that members of our workforce will not be retaliated against for cooperation with any authority. It is our policy to attempt to resolve all investigations and avoid any penalty phase if at all possible.
